

For planners and wealth advisors who serve business owners

YOUR CLIENT'S BUSINESS IS THE BIGGEST ASSET YOU CAN'T SEE.

Four steps to help business owner clients see it clearly, and plan an exit with no regrets.

STEP 1

KNOW

Understand what the business is worth and what the owner needs.

- What is the business really worth?
- What does the owner need after tax from a sale?
- What do buyers pay more for?

STEP 2

PROTECT

Keep the value from disappearing when something changes.

- Where are you most vulnerable to a decline in value?
- Could the business run 90 days without the owner?
- Are key people and agreements secure?

STEP 3

GROW

Improve the drivers that raise value.

- Does the growth plan target what matters most?
- Are incentives tied to the KPIs that drive value?
- Are financials accurate and timely?

STEP 4

REAP

Plan for an exit with no regrets.

- Are you reviewing the plan every six months?
- Is the deal team lined up?
- Are you financially, personally and operationally ready?

SCAN FOR THE 18-POINT BUSINESS OWNER CHECKLIST.

Use it in your next owner meeting. Share it with a client. Keep it.

Plan for an exit with no regrets.
